EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Randy Tung on July 20, 2006.

The application has been amended as follows:

- In claim 1, lines 7-10, the phrase "a second fold formed in the first flexible appendage so that a portion of the bottom face of the first flexible appendage underlying the first semiconductor device also overlies the top face of the body portion" has been deleted.
- In claim 6, line 1, the number "5" has been deleted and the number --1-- inserted therefor.
- In claim 7, line 1, the number "5" has been deleted and the number --1-- inserted therefor.
- In claim 10, line 1, the number "5" has been deleted and the number --1-- inserted therefor.
- In claim 39, line 1, the number "38" has been deleted and the number --37-- inserted therefor.
- In claim 40, line 1, the number "38" has been deleted and the number --37-- inserted therefor.

- In claim 42, line 1, the number "41" has been deleted and the number --37-- inserted therefor.
- In claim 43, line 1, the number "41" has been deleted and the number --37-- inserted therefor.
- In claim 46, line 1, the number "41" has been deleted and the number --37-- inserted therefor.

Election/Restrictions

Since independent claims 1 and 37 are in condition for allowance, non-elected claims 4, 23, 24, 26-35, 40, 59, 60, and 62-66, which depend from either claim 1 or claim 37, are hereby rejoined.

Allowable Subject Matter

Claims 1-4, 6, 7, 10-37, 39, 40, 42, 43, and 46-66 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art does not teach or suggest, in combination with the other claimed limitations, that the second alignment key comprises a raised feature spaced a distance from a side edge of the first semiconductor device, and the second alignment key comprises a raised feature spaced a distance from a side edge of the second semiconductor device, wherein the second distance is shorter than the first distance. Shibata et al., the closest prior art of record, teaches that the distances between the edges of the semiconductor devices and the alignment keys are equal, and there is no motivation to combine this teaching with

other relevant prior art to arrive at the invention as claimed in independent claims 1 and 37.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Heather A. Doty, whose telephone number is 571-272-8429. The examiner can normally be reached on M-F, 8:30 - 5:00.
